What YOU Need to Know About Risk Management

George Vogt
CAP Chief of Safety

Risk Management

RM Review

- “Hazards”
 - Things that can “hurt” you
- “Risks”
 - How likely is that “hurt?”
 - How serious is that “hurt?”
- “Controls”
 - Things you can do to reduce risk
 - Reduce the probability *and* severity

RM Review

- “Implement Controls”
 - Use the Risk Controls you selected
- “Supervise...”
 - Are we following the rules?
 - The “controls” become part of the rules
- ... and Evaluate”
 - Are the “controls” working like we planned
 - Do we need to improve the controls?

Pre-activity Briefing

- Before EVERY Activity
 - PT? Drill Practice?? Cleaning barracks??
 - Moving an airplane??
 - YES!!!!
- It's EASY!
 - Gather together
 - Talk about the hazards and risks
 - How do we reduce the risk?
 - Team effort
 - **Let's GO!**

“Knock it off!”

- See something unsafe?
- See a risk you didn’t anticipate?

- **“KNOCK IT OFF!!”**

- Anyone can scream it
- **EVERYONE** stops!
- Repeat as needed

The “Huddle”

The “get together” after the “knock it off”

- What went wrong?
- Is there a new risk we didn’t see?
 - Is the original risk worse than we thought?
- What are the new controls?
 - What’s the new plan?
 - **LET’S GO!**

“Everyday Risk Management”

- “What’s the worst that can happen?”
 - “What am I doing to prevent that?”
- “My goal is to finish this mission...”
 - “... to finish this obstacle course ...”
 - “... to move this airplane...”

“... WITHOUT GETTING HURT”

Questions????

**Have
FUN!!!**

...without getting hurt
